## **Gardening By Design: Energy Smarts for the Garden**

**Placentia, CA-**What does energy have to do with a garden? Plenty. Smart gardening energy is all about what you plant, where you plant, and how you care for your garden. Planting the right tree in the right place can actually save you money. Learn simple steps you can take to conserve energy. Come join us for an informative talk from UCCE Master Gardeners of Orange County.

About the UCCE Master Gardeners of Orange County (from their website): For more than 100 years UC Cooperative Extension advisors and specialists have worked with communities across the state to address economic, agricultural, natural resource, youth development, and nutrition issues. For more than 30 years of UC Cooperative Extension's history, UC Master Gardener volunteers have shared research-based home horticulture information with the public. The first UC Master Gardener Programs started in 1980, with graduating classes in Sacramento and Riverside counties. Since these humble beginnings programs are now thriving in more than 50 counties across the state.

This program is sponsored by the Placentia Library Friends Foundation. No sign-ups required.
